8 I have got the book examined by the Oriental Translator and through it myself. It seems to be a useful publication but may not be possible to prescribe it as a text book. The book may be published in the Govt Press. Before it is printed, the Director may be requested to get the language suitably revised. The book may be sold at cost price to Village Committees & others. About 1000 copies may be printed to start with. The question of paying any remuneration to the Subha Das need not, I think, be considered at this stage.

Sir,

As desired in your No. 1159 Sany. 14-14 dated the 29th July 1914, I have the honor to submit herewith a manuscript copy of " A hand-book of Preventible Diseases prepared under my instructions by Mr. R. Subba Rao, M.B., C.M., L.S.Sc., Health Officer, Bangalore City. Mr. Subba Rao has taken great pains to make the book attractive and useful and his services in this connection merit special recognition by Government. He says that in the preparation of the book he was very materially assisted by Mr. M. Girimaji Rao, Deputy Inspector of Vaccination, Mysore District who happened to be at Bangalore at the time on 33 days' privilege leave granted to him on account of private affairs.

2. The several excellent drawings in the book were done after our own specimens, by Mr. Shankar Rao, a Draftsman in the office of the State Geologist in Mysore I would recommend the payment of a bonus to him equal at least to his pay for one month's [illegible].

3. As regards the use that might be made of the book, I have the following recommendations to make:-

(i) that the book may be introduced in the A.V. Schools, for both boys and girls, to supplement the
